Thu, 21 Mar 2019 15:30:00 GMT macroporous polymers production properties and pdf - Properties of shape-memory polymers. SMPs can retain two or sometimes three shapes, and the transition between those is induced by temperature. In addition to temperature change, the shape change of SMPs can also be triggered by an electric or magnetic field, light or solution. As well as polymers in general, SMPs also cover a wide property-range from stable to biodegradable, from soft to hard ...
